

## HHA 5 Moments for Hand Hygiene Manual Updates 2018

The HHA manual has now undergone its fifth revision since the inception of the program in 2008. The HHA 5 Moments for HH program has had an exceptional uptake with both public and private facilities around the country, with over 1000 organisations now participating in the program. The focus of the HHA program for the future is now aimed toward a sustainability and continual improvement phase.

To assist in navigating the updated HHA manual, the following is a list of the changes made. HHA would recommend that you familiarise yourself with the most significant changes in this edition: updates to weblinks, HHCApp instructions and LMS instructions:

Changes made to HHA Manual May 2018 Release		
Section	Item updated	Rationale for Change
Foreword	Foreword	Introduction from 'New' Manager
1.7.2	Ensuring uniform education	Included information on the Infection Control Orientation modules
1.7.3	Monitoring and Performance Feedback	Removed reference to Staph. Aureus bacteraemia as an outcome measure of the NHHI.
2.3	The 5 Moments in Detail	Standardisation of language used
3.8	Glove Use	Updated references
4.3	Online learning management system	New section added to include new information and updates to the HHA LMS
5.6.1	Auditor training requirements	Updated content to ensure 'mandatory' requirements are clearly stated
5.7	Removal of note	Removed outdated text regarding "new" introduction of department selection guidelines
6.9.3	Additional section added	Addition of tips for accurate data collection
7.2	Additional section added	Detailed description of HHCApp added
7.3	Requirements for national data submission	Updated text to be clear and succinct
7.5	Additional section added	HHCApp Roles and Administration section added clearly defining user roles and functions available to each role
7.4 (previous)	Data entry and management	Moved into other sections to enable better flow of information
7.8.1	Standard reports	Updated to include information on new Poster report, all levels of reporting available, and filtering options for each report

Changes made to HHA Manual May 2018 Release		
8.2.3.5	Additional section added	Addition of specific setting sustainability program for Emergency Departments
Appendices	Appendices	Consolidated and removed links to redundant files
Whole document	Update weblinks	Required due to release of new HHA website

We hope you enjoy the latest version of the HHA Manual.
